Abby Johnson has always been determined to help women in need. That desire led Abby to a career with Planned Parenthood and caused her to flee the organization and become an outspoken advocate for the Pro-Life Movement. She went on to write the national best-selling book and movie adaptation, *Unplanned*, about her experiences. Abby is a frequently requested guest on Fox News and a variety of other shows. Today, she continues to advocate for the preborn as the founder of And Then There Were None which helps abortion facility workers escape the abortion industry.

All proceeds benefit Vitae Foundation, a national non-profit organization that facilitates research about life issues and applies the findings to create messaging strategies to share with others so that together, we can build a future where abortion is unthinkable.
